ARP ROSES, INC. P. O. Box 178 TYLER, TEXAS

Three Newest

ALL-AMERICA

Tiffany (Plant Pat. App. for)

Each \$3.00, 3 for \$7.95

A luscious new hybrid tea with long buds of deep pink shaded yellow at base, opening to phlox-pink blooms. Perfectly formed, double and high centered, the flowers last exceptionally well and are very fragrant. Petals are of heavy texture. Upright and vigorous in growth.

COVER ROSE *Lemon Chiffon*

(Plant Pat. 1241) Each \$2.50, 3 for \$6.60, ppd.

New Arp rose Lemon Chiffon is a bushy, compact, early-flowering hybrid tea resulting from a cross of two widely disseminated and popular yellow roses, Soeur Therese and Golden Dawn.

Hybridized by Swim of Armstrong Nurseries, presented in engravings by McFarland Press, Lemon Chiffon is herewith introduced to American gardens by Arp Roses, Inc. It will retain its rich yellow color and continue flowering abundantly through summer heat.

Fragrance, rare in yellow roses, is admirably strong and spicy. Long pointed buds, usually borne singly, open to 3½ to 4¼-inch, solid yellow flowers.

GUARANTEE

Except for some climbers blooming the second season, every Arp rose is guaranteed to grow and bloom, and every tree to leaf, the spring following planting.

If any fail after normal care (cultural suggestions in each shipment), report by August 1, 1955, and Arp will replace **FREE**.

American Rose Queens

ROSE SELECTIONS FOR 1955

Queen Elizabeth (Plant Pat. 1259)

Each \$3.00, 3 for \$7.95

This glorious new rose is so outstanding that it forced the announcement of a whole new class of roses—the grandiflora. The carmine-rose to dawn-pink flowers combine the magnificent qualities of hybrid teas with the sturdy, free-flowering habit of floribundas. Glossy, dark foliage clothes the tall plant to the ground. Long, almost thornless stems carry the fragrant blooms both singly and in clusters.

Another new Queen, Joanne Miller of Tyler, reigns over the 1954 Texas Rose Festival.

Jiminy Cricket →

Each \$2.50, 3 for \$6.60

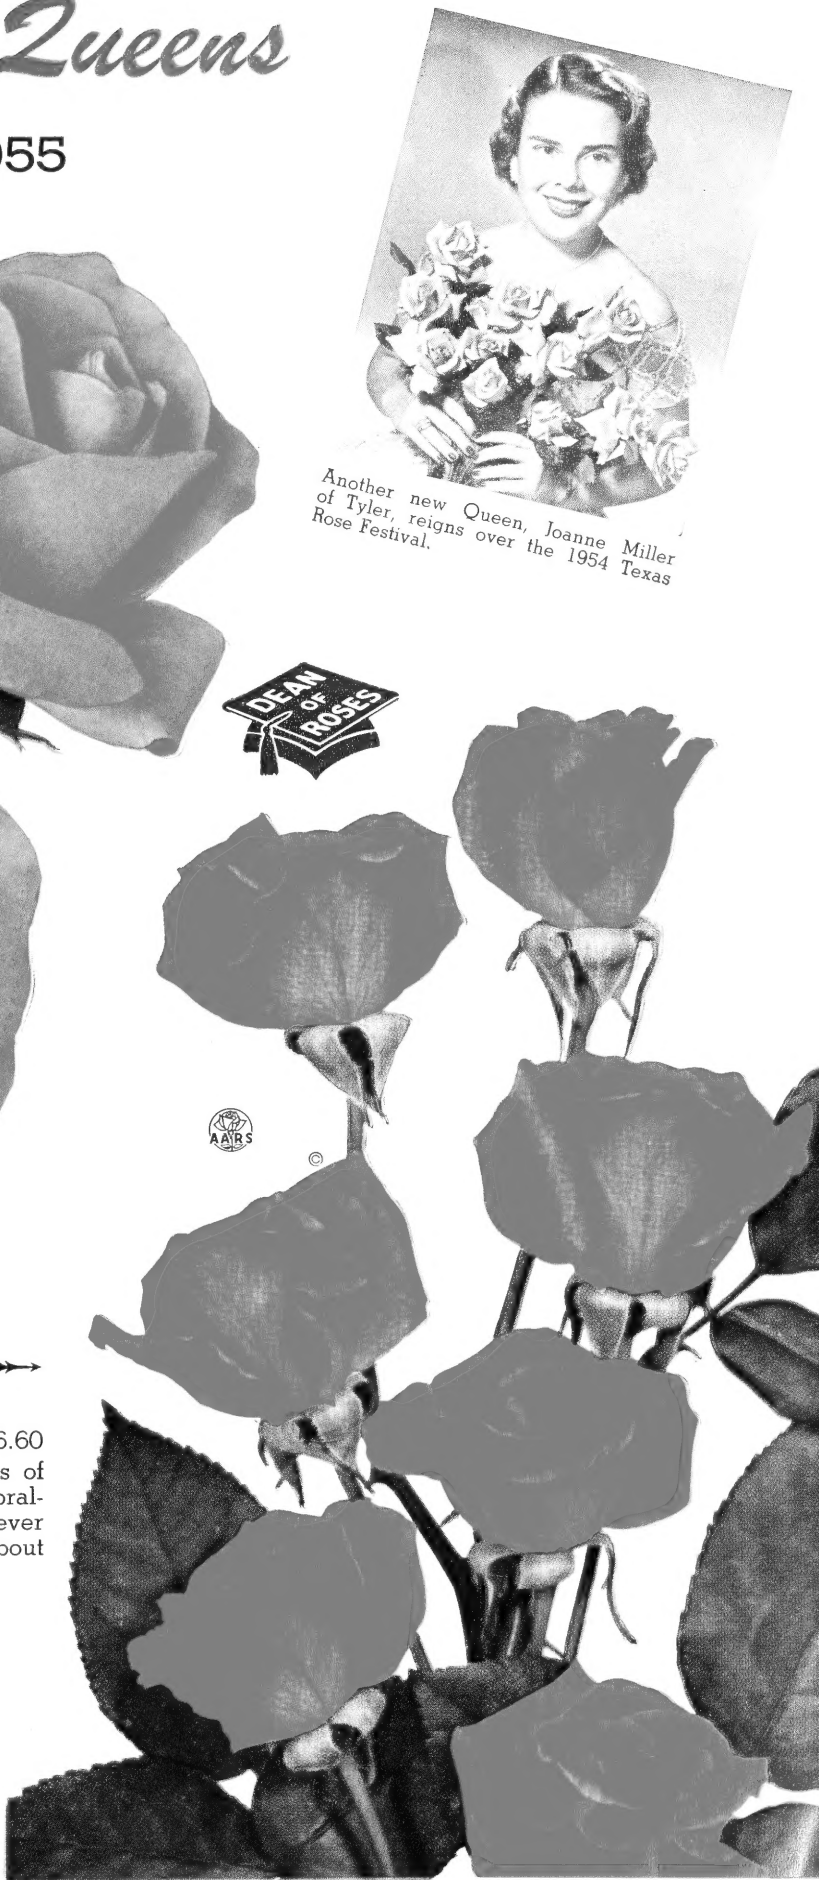

A jolly new floribunda with masses of tangerine-red buds, becoming coral-orange as they open. The color never

is unpleasant. A constant bloomer and healthy grower about 4 feet tall, ideal for hedges.

Basic techniques are simply and clearly described; separate chapters deal with garden planning—what to plant and where and how to plant it—the problems of growing annuals, biennials and perennials. Azaleas and camellias are discussed fully.

There's a calendar for every month of the year that's a complete guide to when and what to do in the garden. Indexed and illustrated with drawings. **\$3.00**, postpaid.
